

Inaugural Annual Dissemination & Implementation Science Institute

October 28-30, 2024

Washington University in St. Louis

CME Provided

WHO SHOULD ATTEND

This program is tailored for doctoral students, postdoctoral fellows, and junior and more-established faculty from universities and research institutes who wish to deepen their understanding of implementation science and receive personalized advice from experts on their research proposals.

OUTCOMES

Participants can expect to gain knowledge and skills to address the challenges and complexities of implementing evidence-based interventions in diverse settings. This experience will enhance future research endeavors, foster collaborative projects, and contribute to the collective advancement of implementation science.

PROGRAM TOPICS

- ▶ Implementation Science (IS) Fundamentals and how it has Evolved
- ▶ Implementation Strategies: Designing, Tailoring, and Reporting
- ▶ Frameworks in IS
- ▶ Research Designs in IS
- ▶ Designing for Dissemination & Adaptation
- ▶ Implementation Outcomes
- ▶ Sustainment and De-Implementation
- ▶ Systems Science in Implementation
- ▶ Future Directions for IS
