

Unlocking the Impact: Introduction to Implementation Science

Online Workshop

May 26th, 2025 - 16.00-18.00 CEST (10am EDT)

Learn how to translate evidence-based policies, programs and practices promoting medication adherence successfully in clinical practice:

- ◎ **Explore the Core Elements of Implementation Science**
- ◎ **Apply Implementation Science in Adherence Research**

What you can expect:

- **Overview** on key components such as patient & public involvement, context analysis, implementation strategies, hybrid designs
- **Case examples** on how to apply implementation science in the context of adherence research
- **Interactive** discussions with implementation science experts and Q&A

Experts: Dr. Charlotte Bekker & Prof. Bart van den Bemt (Radboud University Medical Center), Prof. Leah Zullig & Prof. Connor Drake (Duke University & Durham VA Health Care System), Prof. Sabina De Geest (University of Basel & KU Leuven), Dr. Sabine Valenta & Dr. Juliane Mielke (University of Basel)

Special Offer: Participants of this introductory workshop will receive a discount for the pre-conference workshop at the ESPACOMP Conference in Málaga, Spain!
